PROFILE

A career that began in software development, grew through security and infrastructure management, and is now moving increasingly towards IT governance. I put technical knowledge to work for business decisions, with attention to risk, cost and operational needs.

EXPERIENCE

Security & IT Infrastructure Analyst
03/2026 – present

Edge Group · Milan · Insurance holding company

I look after security and infrastructure for two Microsoft 365 tenants, serving a group of about twenty companies and 350 users, combining technical management with the coordination of vendors, budgets and internal procedures.

- I coordinate remediation following the 2026 internal and external VAPT.
- I configured collaboration between the tenants in line with the segregation requirements linked to IVASS compliance.
- I have handled around ten integrations of acquired companies, from due diligence to the IT work needed for the merger.
- I coordinated the Intune enrolment of 200 devices across Italy and different group companies, and the rollout of 200 smartphones with Samsung Knox.
- I help define operational processes, from onboarding to the handling of support requests.

Full Stack Developer
11/2022 – present

Insureteach S.r.l. · Trieste · Insurance training and software

I have worked on the development of Insurelab, a platform for courses and academies, and of YourSpace, a platform for managing insurance processes, from requirements analysis to release. The role covers back-end and front-end development, and working with users to turn operational needs into application features.

IT Specialist
11/2022 – 04/2026

Edge Broker · Trieste · Insurance broker

I managed the company's information systems, working across software development, infrastructure and licensing. I coordinated a cybersecurity project based on the NIST Cybersecurity Framework, as part of the company's digital transformation.

Intern
2018

Brighton Language College International · UK · Language school

Supported the school office and assisted teachers during English lessons, in an international environment.

Product Management Intern
2017

Nice Group · Oderzo · Home automation

Contributed to the launch of a new product and to competitor analysis for the Gates & Doors line.

MSc in Computer Engineering 10/2023 – 12/2026 (expected)
University of Trieste

Thesis: O.Di.Ri.S., a platform for assessing insurance-related clinical risk in healthcare facilities.

Master in Blockchain and Digital Assets 2022
MasterZ – AIO Blockchain

BSc in Computer Engineering 10/2019 – 03/2023
University of Trieste

CERTIFICATIONS

ECDL
European Computer Driving Licence

Cambridge First Certificate in English (B2)
Cambridge English

Digital Marketing Diploma
Studio Samo · 2018

PROJECTS

Professional projects

IT infrastructure integration
Edge Group

From a first company of around 100 people to the integration of some twenty companies, 350 people in total: due diligence, integration planning, mailbox migrations between tenants and file server archives moved to SharePoint, through to the merger.

Microsoft 365 · Entra ID · MigrationWiz · ShareGate · SharePoint

YourSpace — Insurance process management platform
Insureteach

Design and development of an integrated platform for managing clients, policies, claims and sales negotiations. Operational and compliance requirements turned into digital workflows, with task automation, document management and integration with company systems.

Python/Flask · Node.js · SQL Server · Nginx

Device and mobile fleet management
Edge Group

I coordinated the Intune enrolment of 200 devices spread across Italy and across different group companies, and the rollout of 200 smartphones with automatic enrolment on first start-up.

Microsoft Intune · Samsung Knox · Android Enterprise

Cybersecurity projects
Edge Group

Running penetration tests, defining the remediation plan and managing company policies, enforced consistently through the Microsoft ecosystem.

VAPT · Remediation plan · Intune · Entra ID

Research and personal projects

O.Di.Ri.S.
MSc thesis · Insureteach

Insurance-related clinical risk in healthcare facilities: an LLM-based voice agent collects adverse events and feeds a risk index (Ministerial Decree 232/2023).

Python · LangGraph · LLM

Venetocore
Personal project

Inventory, orders and designs for a small t-shirt startup run by friends, usable on a phone as a PWA.

JavaScript · Supabase · PostgreSQL · PWA

MUSIC

Pre-academic certifications, level A

Piano

Music theory, rhythm and ear training

Conservatorio Agostino Steffani · Vittorio Veneto

INTERESTS

Curious by nature: in the kitchen I experiment with recipes from all over the world, and in music I move from the piano to genres miles apart. I browse flea markets for objects with a story, which is where my passion for design began.

I authorise the processing of the personal data contained in this CV pursuant to Regulation (EU) 2016/679 (GDPR).
